

CPCCLDG3001 LICENCE TO PERFORM DOGGING

Course Overview

This unit specifies the outcomes required to perform slinging techniques, including the selection and inspection of lifting gear and/or the directing of the crane operator in the movement of the load when the load is out of view of the crane/ operator for licensing purposes.

This unit covers the scope of work to demonstrate competency in the application of slinging techniques, selection and inspection of lifting gear and/or the directing of the crane/ operator in the movement of the load.

This unit is based upon the National Standard for Licensing Persons Performing High Risk Work.

This unit in its current form meets state and territory licensing requirements. Any alteration will result in a unit which is not acceptable to regulators for the purpose of licensing.

Refer to: <https://training.gov.au/Training/Details/CPCCLDG3001>

Course Topics

- Communication techniques and skills in the workplace including whistles, hand signals and use of fixed channel two-way radios
- Calculate rated capacity of lifting equipment
- Apply different methods for making temporary connections to loads using fibre and synthetic ropes
- Ability to interpret rated capacity and working load limit tags
- Hazard identification and control
- Slinging techniques
- Selection and inspection of lifting equipment
- Directing crane operators in the moving of loads in a safe manner, using a slewing crane
- Inspection and care of a wide range of lifting equipment to appropriate Australian Standards and/or manufacturer's specifications.
- Basic knowledge of the types of cranes and their functions
- Commonwealth, state or territory OHS legislation, standards and codes of practice relevant to the full range of techniques for undertaking dogging activities
- Load stability and safety factors in line with manufacturer's specifications

Who Should Attend?

A DG licence is required by anyone directing the operator of a crane or hoist in the movement of a load when the load is out of the view of the operator
