## RIIMPO321F CONDUCT CIVIL CONSTRUCTION WHEELED FRONT END LOADER OPERATIONS

#### **Course Overview**

This unit describes the skills and knowledge required to conduct wheeled front-end loader operations. This unit applies to those working in site- based roles. Where equipment being assessed requires the fitting and removal of attachments to be demonstrated an integrated tool carrier unit should be used.

Licensing, legislative, regulatory and certification requirements that apply to this unit can vary between states, territories, and industry sectors, and must be sourced from state jurisdictions prior to applying this unit.

This unit alone does not provide sufficient skill to independently load and unload equipment. To perform this activity safely, personnel must either complete or be assisting someone who has completed RIIHAN308F Load and unload plant or equivalent.

Refer to: <a href="https://training.gov.au/Training/Details/RIIMPO321F">https://training.gov.au/Training/Details/RIIMPO321F</a>

#### **Course Topics**
